

EVENT TECHNOLOGY

visual continuity
with moving screens

UP & DOWN SCREENS

TECHNICAL SPECIFICATION

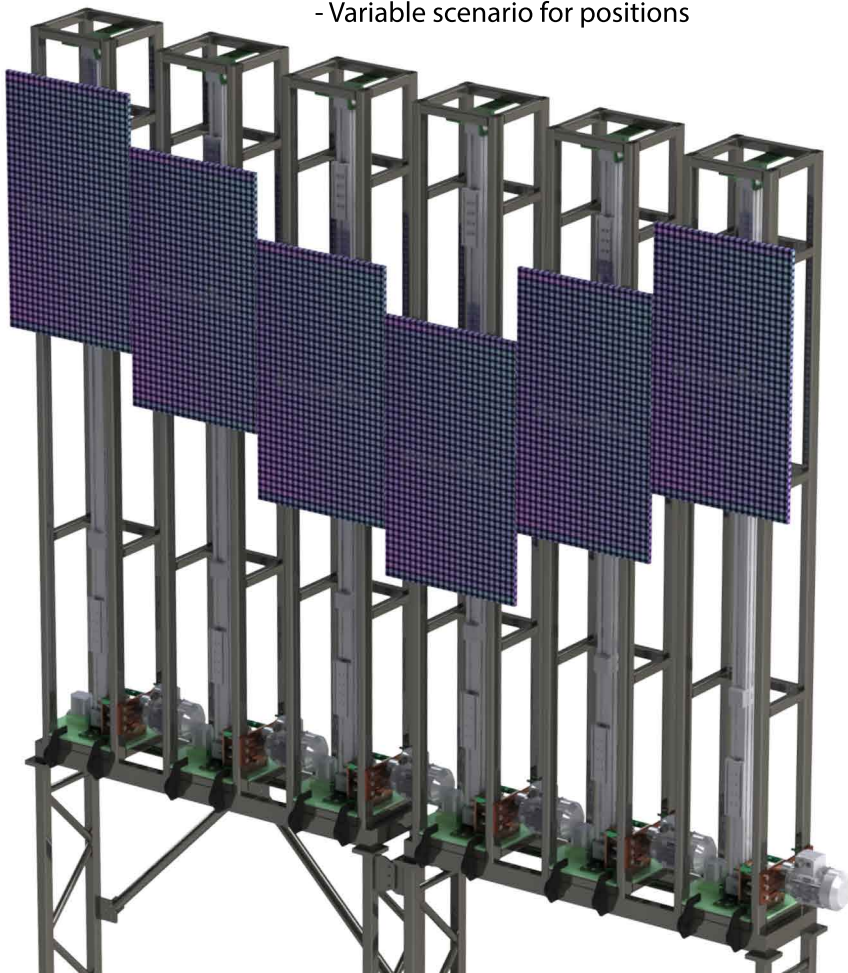

- Drive mechanism: Linear module
- Speed: variable according to scenario
- Lifting Capacity: Up to 40 kg x 6 pieces

SAFETY ELEMENTS

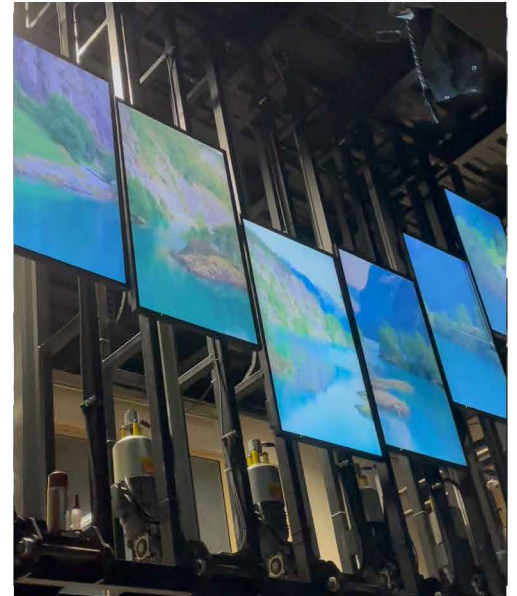

- Lower and Upper limit sensors
- Built-in magnetic brake

CONTROL

- Feeding with frequency inverter over the stage mechanical systems power panel
- iOS tablet control
- Touch panel control
- Variable scenario for positions

SAFETY LIMIT SENSORS

VARIABLE LED POSITIONS
