

# UPPERSTAGE ENGINEERING

theatre winches  
for high lifting capacity

## DRUM MOTOR

### TECHNICAL SPECIFICATION

- Drum diameter: 200 mm
- Speed: Variable between 0.1-0.8 m/s
- Lifting Capacity: up to 1200 kg
- Power transmission: chain coupling
- 5 mm steel rope 18x7

### SAFETY ELEMENTS

- Lower and Upper limit switches
- Upper and lower safety switch
- Built-in magnetic brake
- Internal magnetic double brake (optional)
- External magnetic tail brake (optional)
- Overload detection (optional)
- Position feedback (optional)

### BAR

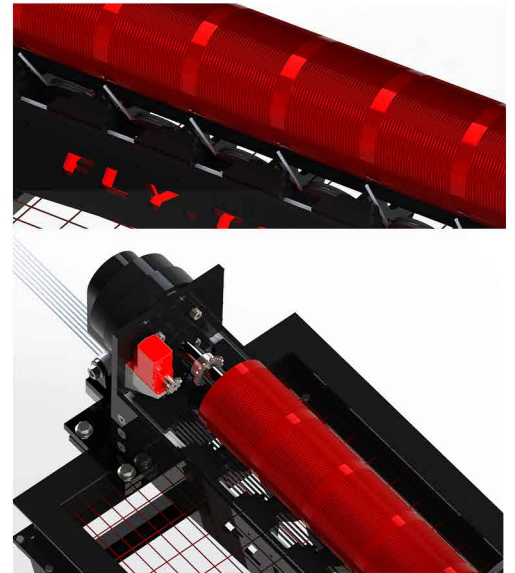

- Steel truss
- Aluminum truss (optional)

### CONTROL

- Feeding with frequency inverter over the stage mechanical systems power panel
- iOS tablet control
- Touch panel control

### CABLE CONTROL

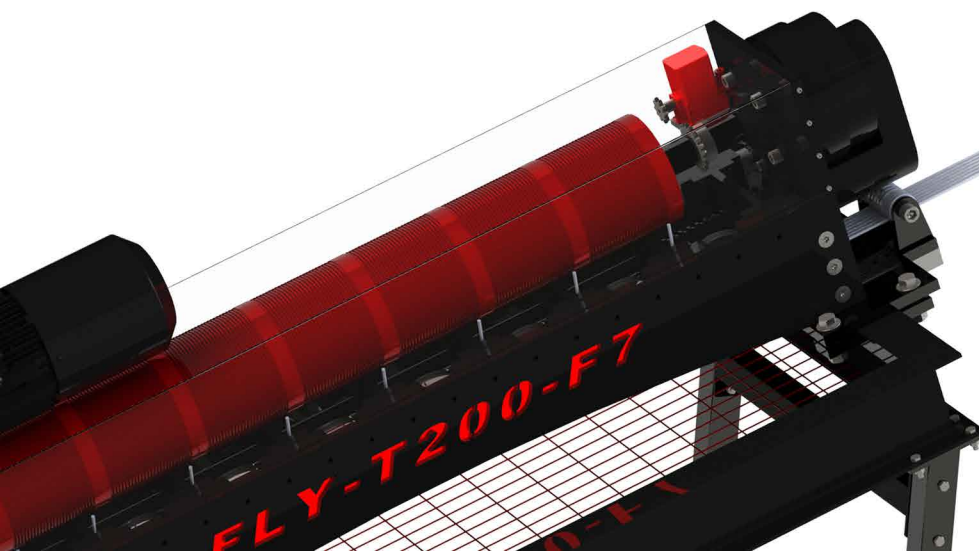

- Cable drum
- Aluminum cable scissors (optional)
